CURRICULUM VITAE

Felipe Pires Soares

Senior Software Engineer — C# / .NET

Porto, Portugal · felipe@psoares.uk · linkedin.com/in/felipesoares · github.com/FelipePSoares

PROFESSIONAL SUMMARY

Senior Software Engineer with 12+ years of experience building high-availability, distributed systems in .NET/C#. Specialist in microservices architecture, event-driven systems, and complex financial integrations across fintech, e-commerce, and healthcare. Proven technical leader with hands-on delivery of national-scale payment infrastructure, cross-border payment platforms, and real-time transaction processing. Experienced in mentoring engineering teams, driving system design decisions, and delivering production-grade solutions with strong DevOps and automated testing practices.

KEY SKILLS

Back-end	.NET Core · .NET Framework · C# · RabbitMQ · Kafka · Redis · Microservices · REST APIs · gRPC · SOLID · Clean Architecture · System Design
Front-end	Angular · JavaScript · Ext JS
Databases	SQL Server · Oracle · MySQL · MongoDB
DevOps & Cloud	Docker · Kubernetes · Azure · Azure DevOps · CI/CD · Automated Testing · Unit Testing · Integration Testing
Practices	Agile · Scrum · TDD · Domain-Driven Design (DDD) · Code Review · Technical Mentoring
Languages	Portuguese (Native) · English (C1) · German (A2)

PROFESSIONAL EXPERIENCE

ITSP Services
Salzburg, Austria · Sep 2024 – Present

Senior Software Engineer

- Engineered and maintained low-latency event processing features for a live Sportsbook platform, minimizing financial exposure from delayed bet settlements.
- Diagnosed and resolved critical production incidents in a high-throughput financial transaction environment, reducing mean time to resolution and safeguarding revenue streams.

.NET Core, .NET Framework, Angular, RabbitMQ, Docker, SQL Server

Farfetch
Porto, Portugal · Aug 2021 – Feb 2024

Senior Software Engineer

- Integrated global payment providers and internal refund systems for Farfetch's payments platform, supporting high-volume cross-border transactions across 190+ countries.
- Collaborated with the technical lead on sprint planning and backlog prioritization, improving team delivery predictability across multiple quarterly cycles.

.NET Core, Kafka, Redis, Docker, SQL Server, Automated Testing

K2 Partnering Solutions (Banco BS2)
Brazil · May 2019 – Aug 2021

Technical Lead / Senior Software Engineer

- Led the end-to-end technical design and delivery of PIX integration — Brazil's central bank instant payment system — meeting the mandatory BACEN go-live deadline and enabling real-time payments for millions of end users.
- Directed a cross-functional squad of 4 engineers and QA, coordinating deliverables with business stakeholders and ensuring regulatory compliance throughout the development lifecycle.

.NET Core, RabbitMQ, Redis, Docker, Azure DevOps, Angular, SQL Server

Altran Consulting (Fleury) Brazil · Sep 2018 – May 2019
Senior Software Engineer

- Spearheaded the digital transformation of Fleury's legacy systems, migrating PHP/Java monoliths to a modern C#/.NET microservices architecture.
- Architected and delivered new enterprise applications supporting healthcare data workflows for one of Brazil's largest diagnostic medicine groups.

Indusval Bank Brazil · Jan 2018 – Sep 2018
Senior Software Engineer

- Modernized the core technology stack and defined the system architecture for new digital banking services, replacing legacy infrastructure with scalable .NET solutions.

SML Brazil Brazil · Mar 2017 – Jan 2018
Senior Software Engineer

- Delivered new features and resolved system defects across corporate ERP applications, improving software stability and user productivity.

EFIX Brazil · Apr 2016 – Mar 2017
Mid Software Engineer

- Developed and maintained .NET features and modules, contributing to reliable delivery of client-facing applications.

CWI Software Brazil · Apr 2013 – Dec 2015
Mid Software Engineer

- Built a campaign planning system for a major marketing agency, implementing complex business logic for multi-channel campaign scheduling and budget management.

EDUCATION

Cruzeiro do Sul University *B.Sc. in Systems Analysis and Development* Brazil · 2017 – 2019

Sinodal Dorothe Schäfke College *Diploma in Java Programming and MySQL* Brazil · 2010 – 2013

LANGUAGES

Portuguese (Native) English (C1) German (A2)
